igenix NEW HEATED AIRERS

Drying laundry quickly and evenly in the cooler months can be a slow process without the use of a potentially expensive tumble dry cycle, not to mention the potential risks of damp and mould when drying clothes indoors on a traditional airer.

Igenix is pleased to launch two new heated airer models, which can be a cost-effective and efficient way of drying laundry, compared to using a tumble dryer when the sun isn't available to give a helping hand.
